

This year our sale is bigger than ever! We're clearing stock of the ends of rolls of our bestselling fabrics and colours by offering it as **FREE fabric when ordering made to measure roman blinds**.

When making curtains we use continuous meterage, leaving us with a number of ends of rolls of the same quality fabric in popular neutrals and greys that our customers love. So, this year we decided to add this stock to our discontinued lines and have a proper clear out to make way for new lines of fabric and create space for our fantastic outlet store in our Nottinghamshire head office.
